PROFESSIONAL SUMMARY

Software Engineer specialized in Ruby with over 4 years of solid experience in developing, optimizing, and scaling SaaS applications in production environments. Strong backend expertise combined with a high degree of autonomy in managing features end-to-end, writing robust test suites, and tuning relational databases.

PROFESSIONAL EXPERIENCE

Backend Developer at **IndigoDev** 2023

- Achieved a ~20% improvement in response times and overall system fluidity by implementing asynchronous job processing pipelines using Sidekiq.
- Managed the full backend lifecycle (architecture analysis, implementation, RSpec testing, and deployment) and optimized PostgreSQL production queries.

Backend Developer at **Syndicode** 2021– 2023

- Developed and maintained scalable applications for high-growth SaaS products within an Agile team environment.
- Integrated third-party services and rapidly diagnosed and resolved production anomalies (bug fixing).

Backend Developer at **DigitalSuits** 2021

- Optimized existing Ruby on Rails applications and authored comprehensive RSpec test suites to increase code reliability and maintainability.
